Appendix E — Evidence panels, cohorts 2008–2021 (Version 1.0)

Part I · Cohorts 2008–2014

*This is **tabulation of already-coded data**, not new primary research. Per-Act dots and ▸S flags are taken from the cohort coding files (per-Act dataset — report §5.7); harmonized denominators from the reconciled series (report, Appendix B); the major definition, the named unreviewed-major list and the per-cohort major-only rates from the standardized recount (report §5.6). No new dot is introduced; where this tabulation cannot be reconciled with Appendix B or with the major definition, the gap is flagged with an explicit `DISCREPANCY:` line rather than fudged. "None located" is search-bounded throughout ("no public review located as of 2026-06", never a claim none exists); no merits verdict is offered on any Act; ≈ is left as ≈. Check date 2026-06.*

> **Scope of this file:** the seven cohorts **2008, 2009, 2010, 2011, 2012, 2013, 2014**. The 2015–2021 half and the **field totals + the headline reconciliation (merged: major total ≈131 / major-open 13 strict / major-only ≈90% / ▸S 77-of-77)** are carried in the second-half panel. The per-cohort reconciliations below all close locally.

Conventions used in this half (stated so the tables are inspectable)

Dots. filled = whole-Act operation/effect review OR statutory whole-Act review / formal Cm 7320 memorandum; half = partial / component / regime / statutory-reporting / adjacent; open = no located review. ▸S = the Act itself writes a statutory review/report duty.

Harmonization re-codes already applied (documented in the reconciled series (Appendix B) — not new coding):

- **2010** ◆ CRaG (c.25), carved out at stage-1, **returned IN as half** at 2b → frame 30→31, half 6→7.
- **2011** ◆ Olympic (Amendment) (c.22), carved out at stage-1, **returned IN as open** at 2b → frame 20→21, open +1.
- **2013** ▲ Jobseekers (Back to Work Schemes) (c.17) **demoted half→open** at 2a → half 6→5, open 13→14; **reversed at the stage-3 audit** on the located s.2 Oakley review — final dot half ▸S (✚, applied below).

Post-harmonization merged layer applied here (report §5.6 / the merged-series delta, July 2026): 2008 c.32 half→filled (the parallel line; whole-Act Cm 8893 memorandum) and c.31 → ▸S (s.14; the parallel line); 2013 c.17 open→half ▸S (stage-3 audit; s.2 Oakley review — reverses the 2a demotion); 2014 c.28 open→half (stage-3 audit; TFC evaluations — the coding file's own re-search flag, resolved). ✚ marks merged re-codes below; the second-half additions (2018 c.12; 2019 c.12; the ▸S grid reconciliation; D4) are carried in the second-half panel.

E1 major definition (applied uniformly). *Clearly-major* = a flagship substantive Government Act **or** a major constitutional Act; **excluded**: narrow PMB, consolidation,

curative/retrospective, spent/event, tax-administration. Where a coding file already names its major set, that set is used; borderline inclusions/exclusions are named.

E5 ▸S type legend. `TR` = true review / PIR duty (mandates an actual review of the Act/regime); `PR` = periodic report-on-operation duty (recurring statutory report on the Act's own subject); `SB` = standing-body monitoring/reporting duty (recurring scrutiny/return by a standing body the Act creates).

E6 route legend (one *primary* route per located Act; several Acts are multi-route — flagged inline). `DM` = departmental memorandum (Cm 7320 PLS memo / PIR / Government review document); `LC` = Lords–Commons inquiry (select / ad-hoc / joint committee); `NP` = NAO–PAC; `ISR` = independent statutory reviewer (named standing office, e.g. IRTL); `SSR` = statutory self-report (recurring statutory report / periodic review the Act mandates); `RB` = regulator-or-body report (regulator / inspectorate / ombudsman, not an Act-mandated review); `CE` = commissioned evaluation (Government-commissioned independent review/evaluation, or departmental research); `CR` = component review (scope label, used where the artefact reviews a component and no cleaner route label applies). *Route assignment is a judgement on the most salient located artefact and is approximate; it is deliberately kept distinct from ▸S status (an Act can be ▸S yet have its most salient located artefact be, e.g., a Lords–Commons inquiry).*

E7 tail categories. the revision specification six: `nPMB` narrow PMB · `LCc` Law-Commission codification/consolidation · `nc` never-commenced · `se` spent-event · `mR` major-recent · `mO` major-old. Two flagged additions are used where the six do not fit cleanly (the task permits multi-label / flagging rather than forcing a bucket): `[cr]` curative/retrospective; `[rd]` review-declined / constitutional. Narrow technical or amending **Government** Acts that are not literally PMBs are placed under `nPMB` with an inline flag.

COHORT 2008 ✚ — frame 23 (33 PGA − 10 carve-outs); F 13 / H 5 / O 5 ; none ≈22%

Merged: c.32 half→filled (Cm 8893) and c.31 → ▸S (✚). Heavyweight / major-Act-rich; dense Cm 7320 environment (10 memos).

E1 · major × outcome

Major set (coding file, n=13): **c.4** CJ&Imm · **c.6** Child Maintenance · **c.14** Health & Social Care · **c.17** Housing & Regeneration · **c.22** HFE · **c.23** Children & Young Persons · **c.25** Education & Skills · **c.26** Local Transport · **c.27** Climate Change · **c.28** Counter-Terrorism · **c.29** Planning · **c.30** Pensions · **c.32** Energy.

major outcome	Acts	n
filled	c.4, c.6, c.14, c.17, c.22, c.25, c.26, c.27, c.28, c.30, c.32	11

major outcome	Acts	n
half	c.23, c.29	2
open	—	0
major-only (any located)		**13/13 = 100%**

Borderline inclusions (open, machinery): **c.13** Regulatory Enforcement & Sanctions, **c.24** Employment — both coded open and treated as *non-major* in the strict set. If counted major: 13/14 ≈ 93% (one) → 13/15 ≈ 87% (both). `RECONCILE → the standardized recount (§5.6): 2008 ~87–93%` ✓ (strict 100% is the upper bound; the band reflects the two borderlines).

E4 · ▸S × outcome (+ non-▸S comparator)

set	filled	half	open	total	located rate
▸S	c.27, c.30, c.31 (3)	c.11 (1)	— (0)	4	4/4 = 100%
non-▸S	10	4	5	19	14/19 ≈ 74%

▸S-open exceptions: **none**. c.31 Dormant Accounts joins the set on its s.14 review-and-report duty (the parallel line); its whole-Act HMT review is the DM-routed artefact noted at E6.

E5 · ▸S by type

type	Acts (outcome)
TR true review/PIR	c.30 Pensions — ≥3-yearly statutory AE review, Cm 9546 *(filled)* · c.31 Dormant Accounts — s.14 review-and-report duty; HMT whole-Act review *(filled, ✚)*
PR periodic report-on-operation	c.27 Climate Change — s.36 CCC annual progress reports *(filled)* · c.11 SEN(Information) — statutory annual SEN report duty *(half)*
SB standing-body monitoring	—

Type tally: TR 2 (F2) · PR 2 (F1,H1) · SB 0 → ▸S F3/H1/O0. ✓

E6 · route × scope × independence (located = 18)

route	Acts	n
DM departmental memorandum	c.4, c.6, c.14[1], c.17, c.20, c.22, c.26, c.28[2], c.31[3], c.32	10
SSR statutory self-report	c.11, c.27[4], c.30	3

route	Acts	n
CE commissioned evaluation	c.25, c.29	2
NP NAO–PAC	c.2, c.10	2
RB regulator-or-body	c.23 (Ofsted)	1
CR component review	— (c.32 re-routed DM at the parallel-line adoption on the whole-Act Cm 8893 memorandum; its FiT/RHI component reviews remain noted)	0

[1]+independent Dash CQC review. [2]+IRTL statutory remit (independent reviewer). [3]c.31 = HMT Government whole-Act review (not a Cm 7320 memo). [4]c.27 also has a Cm 7320 memo. *Note:* the coding file's formal Cm 7320 memoranda are ten {c.4,c.6,c.14,c.17,c.20,c.22,c.26,c.27,c.28,c.32 — the last the whole-Act Cm 8893, adopted from the parallel line}; the DM route here (also ten) substitutes c.31's Government whole-Act review for c.27 (routed to SSR). Same count, different membership — a dual-route bookkeeping point, not a discrepancy. Reconciliation: route counts 10+3+2+2+1+0 = 18 = F13+H5. ✓

E7 · tail composition (open = 5)

category	Acts	n
nPMB	c.21 ("Merton Rule" PMB)	1
LCc	c.12 Statute Law (Repeals)	1
se	c.15 (emergency, sunset, superseded by Coroners & Justice 2009)	1
mO	c.13 RES&S, c.24 Employment — **both borderline-major** (the E1 inclusions)	2

Reconciliation: 1+1+0+1+0+2 = 5. ✓ The two mO entries are the genuine *old* major misses the standardized recount (§5.6) flags.

COHORT 2009 — frame 21 (27 PGA − 6 carve-outs); F 6 / H 7 / O 8 ; none ≈38%

Stage-1 dots harmonized (Appendix B) (no re-code). Late-Parliament heavyweight; salience pattern strong but imperfect.

E1 · major × outcome

Major set (coding file, n=11): **c.1** Banking · **c.11** Borders/Citizenship/Imm · **c.12** Political Parties & Elections · **c.13** Parliamentary Standards (IPSA) · **c.20** LDEDC · **c.21** Health · **c.22** ASCL · **c.23** Marine & Coastal Access · **c.24** Welfare Reform · **c.25** Coroners & Justice · **c.26** Policing & Crime.

major outcome	Acts	n
filled	c.11, c.13, c.21, c.25	4
half	c.1, c.20, c.22, c.23, c.24, c.26	6
open	c.12	1
major-only (any located)		**10/11 ≈ 91%**

Sole major open: **c.12 Political Parties & Elections**. `RECONCILE → the standardized recount (§5.6): 2009 ~91% (sole open c.12)` ✓.

E4 · ▸S × outcome (+ non-▸S comparator)

set	filled	half	open	total	located rate
▸S	c.15, c.19, c.21, c.25 (4)	c.14, c.23, c.26 (3)	— (0)	7	7/7 = 100%
non-▸S	2	4	8	14	6/14 ≈ 43%

▸S-open exceptions: **none**.

E5 · ▸S by type

type	Acts (outcome)
TR true review/PIR	c.15 Autism — s.1 keep-strategy-under-review *(filled)* · c.21 Health — s.3 NHS-Constitution 10-yr review *(filled)* · c.26 Policing & Crime — s.50 review of Part 4 (gang injunctions) *(half)*
PR periodic report-on-operation	c.19 Green Energy — Microgeneration/GPDO report duties *(filled)* · c.14 Law Commission — s.3A annual implementation report *(half)*
SB standing-body monitoring	c.25 Coroners & Justice — s.36 Chief Coroner annual report *(filled)* · c.23 Marine — ss.52–54 statutory marine-plan review *(half, borderline TR/SB)*

Type tally: TR 3 (F2,H1) · PR 2 (F1,H1) · SB 2 (F1,H1) → ▸S F4/H3/O0. ✓

E6 · route × scope × independence (located = 13)

route	Acts	n
DM departmental memorandum	c.11, c.19[1], c.21[1], c.25[1][2], c.20[3]	5
LC Lords–Commons inquiry	c.13 (Cttee on Members' Expenses), c.15[1] (HoL Autism Act Cttee), c.23[1] (EAC)	3
CE commissioned evaluation	c.22 (Richard Review), c.24 (ODI Right-to-Control eval)	2
SSR statutory self-report	c.14, c.26	2
RB regulator-or-body	c.1 (FSB/BoE resolution-framework reviews)	1

[1] also ▸S (artefact routed by most salient located form, not by ▸S status). [2] c.25 also has a statutory Chief Coroner report + Justice Cttee inquiry. [3] c.20 = non-statutory PIR of Part 8. *Note:* formal Cm 7320 memoranda = 4 (c.11,c.19,c.21,c.25); the DM route (5) adds c.20's non-statutory PIR. Reconciliation: 5+3+2+2+1 = 13 = F6+H7. ✓

E7 · tail composition (open = 8)

category	Acts	n
nPMB	c.6 Geneva Conventions, c.16 Holocaust Return, c.17 Driving Instruction (clear PMBs) · c.5 Industry & Exports, c.7 Business Rate Supplements (narrow **technical Government** Acts — flagged, not PMBs)	5
LCc	c.18 Perpetuities & Accumulations (gives effect to LC 1998 report)	1
nc	c.8 Saving Gateway Accounts (core scheme never launched; repealed 2011)	1
mO	c.12 Political Parties & Elections	1

Reconciliation: 5+1+1+0+0+1 = 8. ✓ Flag: c.5/c.7 are narrow technical Government Acts folded into `nPMB`; the bucket is read as "narrow PMB / narrow technical instrument" for these two.

COHORT 2010 ◆ — frame 31 (41 PGA − 10 carve-outs, CRaG returned); F 10 / H 7 / O 14 ; none ≈45%

Largest frame in the half. Stage-1 was 30 / 47%; ***2b returned CRaG (c.25) IN as half*** *→ frame 31, none ≈45% (documented re-code, Appendix B). The Cm 7320 process at full stretch (8 formal memos — the most of any cohort).*

E1 · major × outcome

Major set (coding file, n=10): **c.9** Child Poverty · **c.15** Equality · **c.17** Crime & Security · **c.23** Bribery · **c.24** Digital Economy · **c.27** Energy · **c.28** Financial Services · **c.29** Flood & Water · **c.32** Academies · **c.40** Identity Documents.

major outcome	Acts	n
filled	c.15, c.17, c.23, c.27, c.29, c.32, c.40	7
half	c.9, c.24, c.28	3
open	—	0
major-only (any located)		**10/10 = 100%**

`RECONCILE → the standardized recount (§5.6): 2010 100% (0 major-open, "CRaG now half")` ✓. Note: CRaG (c.25), a major-constitutional Act, is now coded **half** (reviewed) — adding it to the major set leaves major-only at 11/11 = 100% (robust).

E4 · ▸S × outcome (+ non-▸S comparator)

set	filled	half	open	total	located rate
▸S	c.38 (1)	c.9, c.22, c.41 (3)	— (0)	4	4/4 = 100%
non-▸S	9	4 (incl. c.25 CRaG)	14	27	13/27 ≈ 48%

▸S-open exceptions: **none**.

E5 · ▸S by type

type	Acts (outcome)
TR true review/PIR	c.22 Debt Relief (Developing Countries) — statutory sunset-clause impact review *(half)*

type	Acts (outcome)
PR periodic report-on-operation	c.38 TAFA — s.31 IRTL annual operation reports *(filled)* · c.41 Loans to Ireland — s.2 six-monthly Treasury reports *(half)*
SB standing-body monitoring	c.9 Child Poverty — SMCP Commission "State of the Nation" reports *(half)*

Type tally: TR 1 (H1) · PR 2 (F1,H1) · SB 1 (H1) → ▸S F1/H3/O0. ✓

E6 · route × scope × independence (located = 17)

route	Acts	n
DM departmental memorandum	c.11, c.15[1], c.17, c.23[1], c.27, c.29[1], c.40	7
SSR statutory self-report	c.9, c.22, c.41	3
NP NAO–PAC	c.32, c.34	2
CE commissioned evaluation	c.20 (COMARE, underway), c.28 (Farnish review + NAO/TSC)	2
ISR independent statutory reviewer	c.38 (IRTL/Anderson)[2]	1
RB regulator-or-body	c.24 (Govt-commissioned Ofcom review of ss.17–18)	1
LC Lords–Commons inquiry	c.25 CRaG (HL Constitution Cttee + IAC; the 2b half re-code)	1

[1] also Lords inquiry (c.15 Lords disability inquiry; c.23 Lords inquiry; c.29 EFRA inquiry). [2] c.38 also has a Cm 9316 Cm 7320 memo. *Note:* formal Cm 7320 memoranda = 8 (c.11,c.15,c.17,c.23,c.27,c.29,c.38,c.40); the DM route (7) routes c.38 to ISR instead. Reconciliation: 7+3+2+2+1+1+1 = 17 = F10+H7. ✓

E7 · tail composition (open = 14)

category	Acts	n
nPMB	c.6 Marriage (Wales), c.14 Anti-Slavery Day (symbolic), c.19 Mortgage Repossessions, c.21 Sustainable Communities (Amdt)	4

category	Acts	n
LCc	c.7 Co-op & Community Benefit (consolidation-family; folded into 2014 consolidation), c.10 Third Parties (Rights against Insurers)	2
nc	c.18 Personal Care at Home ("will not be implemented")	1
se	c.1 Video Recordings (procedural re-enactment, spent), c.2 TAFA (Temp), c.3 Fiscal Responsibility, c.26 Children, Schools & Families[5], c.35 Local Government (spent), c.36 Savings Accounts & HiP (abolition), c.37 Superannuation	7
mO	—	0

Reconciliation: 4+2+1+7+0+0 = 14. ✓ Multi-labels: [5]c.26 also nc (Part 2 not commenced; superseded by CFA 2014); c.2/c.3/c.37 also superseded. **0 mO** is the salient feature — every 2010 open is non-major (CRaG, the only candidate, is now half).

COHORT 2011 ◆ — frame 21 (25 PGA − 4 carve-outs, Olympic returned); reconciled (Appendix B) F 8 / H 6 / O 7 ; none ≈33%

*Stage-1 coded **F 9 / H 6 / O 5** (frame 20). 2b returned Olympic (c.22) IN as open; this still does **not** close to the reconciled series' F 8 / H 6 / O 7. See the discrepancy box.*

> **DISCREPANCY: 2011 stage-1 dots vs the Appendix-B harmonized series.** Stage-1 coding file: filled 9 {c.4,c.5,c.13,c.14,c.15,c.16,c.19,c.23,c.24} / half 6 {c.1,c.6,c.18,c.20,c.21,c.25} / open 5 {c.3,c.7,c.8,c.9,c.17}, frame 20. Adding the documented 2b Olympic re-code (c.22 open) → **F 9 / H 6 / O 6**, frame 21. **Appendix B reports F 8 / H 6 / O 7** ("was 20/30% at 2a" ⇒ open 6 at frame 20). The remaining gap is a **net filled −1 / open +1 at stage 2a that the available files do not pin to a named Act.** The interpretation consistent with *every* constraint — including the standardized recount (§5.6)'s 2011 major-only = 100% / 0 major-open — is **c.19 Pensions filled→half** (the log's flagged filled/half borderline) **+ a non-major half→open** (the log's flagged candidate is **c.25 Charities**, the "consolidation-Act

puzzle"; c.18 Covenant is explicitly *kept* half by the standardized recount (§5.6), and demoting any *major* half such as c.21 would break the confirmed 100%). This reconstruction is **flagged as inference, not asserted as a re-code** — Appendix B gives only the aggregate. The tables below are built on **stage-1 dots (+Olympic)**; the harmonized totals differ by this one unlocalized 2a move.

E1 · major × outcome

Major set (coding file, n=11): **c.1** PVSC · **c.4** Budget Responsibility & NAO · **c.5** Postal Services · **c.13** Police Reform & Social Responsibility · **c.14** Fixed-term Parliaments · **c.16** Energy · **c.19** Pensions · **c.20** Localism · **c.21** Education · **c.23** TPIM · **c.24** Public Bodies.

major outcome (stage-1)	Acts	n
filled	c.4, c.5, c.13, c.14, c.16, c.19, c.23, c.24	8
half	c.1, c.20, c.21	3
open	—	0
major-only (any located)		**11/11 = 100%**

`RECONCILE → the standardized recount (§5.6): 2011 100% (0 major-open)` ✓ — **robust under both stage-1 and the harmonized reconstruction** (c.19 stays reviewed whether filled or half; the unlocalized 2a open-demotion is non-major). Adding c.15 Sovereign Grant to the major set → 12/12 = 100%.

E4 · ▸S × outcome (+ non-▸S comparator) — *stage-1 basis; ▸S reconstructed from Act descriptions (the 2011 log lacks a clean ▸S list)*

set	filled	half	open	total	located rate
▸S	c.4, c.14, c.15, c.23 (4)	c.18 (1)	— (0)	5	5/5 = 100%
non-▸S	5	5	5 (+ Olympic)	15 (+1)	10/15 ≈ 67%

▸S-open exceptions: **none**. *Flag:* c.19 Pensions is treated as **non-▸S** (its PHSO investigation and SPA reviews trace to standing-body function / the Pensions Act 2014, not a review clause in the 2011 Act); c.18 Covenant ▸S is the A10/A15 borderline (reports cover covenant *delivery*, kept half by the standardized recount (§5.6)).

E7 · tail composition (merged open = 5)

category	Acts	n
nPMB	c.8 Citizenship (Armed Forces) (1-clause PMB), c.10 Leasehold Reform (Amdt) (tiny PMB; repealed), c.15 Deep Sea Mining (PMB, UNCLOS), c.17 Gambling (Licensing & Advertising) (narrow **Government** amending Act; parent 2005 regime reviewed, not this — flagged), no Act-specific PLS located — **borderline, re-search candidate** per the 2014 cohort coding file)	4
LCc	c.16 Inheritance & Trustees' Powers (implements LC 2011 report)	1

Reconciliation: 4+1 = 5. ✓ Multi-labels/flags: c.10 also spent/repealed; c.17 is a non-PMB narrow Government Act folded into `nPMB`; c.28's re-search flag is **resolved** — re-coded half at the stage-3 audit (✚). **0 mO** — consistent with the standardized recount (§5.6) ("all six opens narrow").

Partial cross-cohort summary (2008–2014 only — field totals are carried in the second-half panel)

cohort	frame	F / H / O	none%	▸S total (F/H/O)	▸S-open	major-only (strict)	reconcile
2008 ✚	23	13 / 5 / 5	≈22%	4 (3/1/0)	0	13/13 = 100%	✓ merged (c.32 → filled;

cohort	frame	F / H / O	none%	▸S total (F/H/O)	▸S-open	major-only (strict)	reconcile
							c.31 → ▸S)
2009	21	6 / 7 / 8	≈38%	7 (4/3/0)	0	10/11 ≈ 91%	✓ = reconciled
2010 ◆	31	10 / 7 / 14	≈45%	4 (1/3/0)	0	10/10 = 100%	✓ (CRaG re-code applied)
2011 ◆	21*	**9 / 6 / 6***	≈33%†	5 (4/1/0)	0	11/11 = 100%	**DISCREPANCY → RESOLVED** (second-half panel, finalized 2011 block)
2012	18	7 / 4 / 7	≈39%	3 (2/1/0)	0	6/7 ≈ 86%	✓ = reconciled
2013 ▲✚	27	8 / 6 / 13	≈48%	9 (5/4/0)	0	9/10 ≈ 90%	✓ merged (c.172a→open; restored half ▸S at stage-3)
2014 ✚	20	9 / 6 / 5	≈25%	5 (4/1/0)	0	11/11 = 100%	✓ merged (c.28 → half, stage-3)

* 2011 row shows the **stage-1 + Olympic** tabulation (F 9 / H 6 / O 6, frame 21). **the Appendix-B harmonized series = F 8 / H 6 / O 7, none ≈33%.** † The none% closes to the reconciled series' ≈33% only after the unlocalized 2a filled→open-equivalent move; on the stage-1+Olympic basis it reads 6/21 ≈ 29%. The discrepancy is the single open reconciliation item in this half (one Act; major-only and ▸S columns are unaffected and robust).

Cross-cutting facts visible in the seven cohorts (descriptive, no trend claim — series reading is in the report body (§3)):

- **▸S-open = 0 in every cohort 2008–2014.** Every Act that wrote its own statutory review/report duty has a located filled or half result. ▸S located rate = 100% across the half; non-▸S located rate spans ≈28% (2013) → ≈74% (2008).
- **Major-only ≈86–100% (strict)** in every cohort; the four genuine *old* major misses surfaced here are **c.13 RES&S (2008, borderline), c.24 Employment (2008, borderline), c.12 Political Parties (2009), c.19 Civil Aviation (2012), c.27 Growth & Infrastructure (2013)** — the rest of the unreviewed share is the narrow tail.
- **E5 split:** the ▸S sets in **2013 (7/8) and 2014 (5/5)** are dominated by *genuine* review/PIR duties (TR), i.e. not the duty-produces-its-own-report case — relevant to the tautology critique. 2008/2009/2010 carry more PR/SB (recurring-report) ▸S.
- **E7 tail is structurally patterned in all seven:** narrow PMB + Law-Commission codification + spent/event dominate; nc is rare (c.8/2009, c.18/2010, with partials at c.26/2010, c.23/2014); m0 is 0 in 2010, 2011, 2014.

DISCREPANCY register (this half)

1. **2011 stage-1 vs Appendix B** — stage-1 dots (+Olympic) close to F 9 / H 6 / O 6 (frame 21); Appendix B reports F 8 / H 6 / O 7. Gap = one unlocalized stage-2a filled→open-equivalent move not named in the available files. Consistent reconstruction (flagged inference, **not** a re-code): c.19 Pensions filled→half + a non-major half→open (log candidate c.25 Charities). Major-only (100%) and ▸S (5/5 located) are unaffected. **RESOLVED:** the record was recovered — the finalized 2011 block (second-half panel) names the moves, c.19 Pensions filled→half + c.25 Charities half→open, matching the flagged inference exactly; no further action.

2. **Classification notes (not denominator discrepancies, logged for transparency):** (a) DM route counts exceed "formal Cm 7320 memoranda" in 2008/2009/2010/2012/2013/2014 because DM here also captures PIRs and Government whole-Act review documents — membership differs, totals reconcile. (b) nPMB is read as "narrow PMB / narrow technical or amending Government Act" for the handful of non-PMB narrow Acts (c.5/c.7 2009; c.3 2011; c.22 2012; c.17/c.28 2014); flagged inline. (c) [cr] and [rd] are flagged additions to the ledger-specification six E7 buckets (c.18 2012; c.17, c.20 2013). (d) the 2014 c.28 re-search flag is **resolved** — re-coded half at the stage-3 audit (✚, HMRC RR570 + HMT-funded TFC evaluation).

3. **Merged propagation (July 2026, report §5.6 / the merged-series delta).** Applied in this half: 2008 c.32 half→filled (Cm 8893) and c.31 → ▸S (the parallel line); 2013 c.17 open→half ▸S (stage-3; s.2 Oakley — reverses the 2a demotion); 2014 c.28 open→half

(stage-3; TFC evaluations). First-half merged tallies: **F 61 / H 41 / O 59** (= 161); **▸S 37/37**; located **102**.

End of Appendix E first half (2008–2014, merged). Field totals + headline reconciliation (merged: ≈131 / 13 strict / ≈90% / ▸S 77-of-77) and the 2015–2021 cohorts are carried in the second-half panel.

Part II · Cohorts 2015–2021, field roll-ups and headline reconciliation

*A continuation of the first-half panel (Appendix E, cohorts 2008–2014); structure and legends are identical for uniformity. This is **tabulation of already-coded data**, not new primary research. Per-Act dots and ▸S flags are taken from the cohort coding files (the cohort coding files (per-Act dataset — report §5.7)); harmonized denominators from the reconciled series (report, Appendix B); the major definition, the named unreviewed-major list and the per-cohort major-only rates from the standardized recount (§5.6); the finalized 2011 resolution from the 2011 harmonization record (report §5.6). Structure and legends (E1/E4/E5/E6/E7) are **identical to the first half** for uniformity. No new dot is introduced; where this tabulation cannot be reconciled with Appendix B, with the standardized recount (§5.6), or with the major definition, the gap is flagged with an explicit `DISCREPANCY:` line rather than fudged. "None located" is search-bounded throughout ("no public review located as of 2026-06", never a claim none exists); no merits verdict is offered on any Act; ≈ is left as ≈. Check date 2026-06.*

Scope of this file: the seven cohorts **2015, 2016, 2017, 2018, 2019, 2020, 2021**; the **finalized 2011** block (resolving the single carried discrepancy from the first half); the **FIELD TOTALS across all 14 cohorts** (first half + this half); and the **HEADLINE RECONCILIATION** (release: major total ≈130 / major-open 12 strict / major-only ≈91% / ▸S 78-of-78). The conventions are restated compactly below; the full statement is in the first half.

Conventions (identical to the first half — restated compactly)

Dots. filled = whole-Act operation/effect review OR statutory whole-Act review / formal Cm 7320 memorandum; half = partial / component / regime / statutory-reporting / adjacent; open = no located review. ▸S = the Act itself writes a statutory review/report duty.

Harmonization re-codes already applied (documented in the reconciled series (Appendix B) — not new coding):

- **2015 ▲ (pilot)** strict re-adjudication demoted **three** halves to open (c.17 Self-build, c.20 Deregulation, c.28 HSC Safety & Quality) → none ≈32%→≈45% (+13pp); frame 22 unchanged.
- **2017 ▲** Bus Services (c.21) **demoted half→open** at 2a → half 7→6, open 12→13, none ≈48%→≈52%.

- **2019 ▲** frame 13→15 (c.10 FGM + c.28 Census **returned IN**, both open) **and** c.5 **demoted half→open** → none ≈54%→≈67%; **ledger-verified** against the 2019 pilot ledger (the 2019 ledger check (report §5.6)).
- **2020 ▲** Immigration & SSC (EU Withdrawal) (c.20) **demoted half→open** at 2a → half 4→3, open 12→13, none ≈57%→≈62%.
- **2016, 2018, 2021** — stage-1 dots = harmonized (no re-code).

Post-harmonization merged layer applied here (report §5.6 / the merged-series delta, July 2026): 2013 c.17 open→half ▸S (stage-3 audit; s.2 Oakley review); 2014 c.28 open→half (stage-3; TFC evaluations); **2018 c.12 open→half ▸S** (panel review; ss.189/178); **2019 c.12 open→half ▸S** (the parallel line + panel; s.3 Pregnancy Loss Review); 2008 c.32 half→filled (the parallel line; Cm 8893 — first half); **▸S grid undercounts reconciled to the coding-file sets (parallel line-1):** +c.19 (2016), +c.16 (2017), +c.18 (2018), +c.3 & c.17 (2019); **D4:** consolidations excluded from the strict clearly-major set (2020 c.17). ✚ marks merged re-codes below.

E1 major definition (applied uniformly). *Clearly-major* = a flagship substantive Government Act **or** a major constitutional Act; **excluded**: narrow PMB, consolidation, curative/retrospective, spent/event, tax-administration. Where a coding file names its major set, that set is used; borderline inclusions/exclusions are named. Per-cohort major denominators carry a **±1–2 boundary wobble** (the major call is a judgement); the *named* unreviewed majors are the checkable evidence, anchored to the standardized major recount (report §5.6).

E5 ▸S type legend. `TR` true review / PIR duty · `PR` periodic report-on-operation duty · `SB` standing-body monitoring/reporting duty.

E6 route legend (one *primary* route per located Act; multi-route Acts flagged inline; assignment is a judgement on the most salient located artefact, kept distinct from ▸S status). `DM` departmental memorandum (Cm 7320 memo / PIR / Government review document) · `LC` Lords–Commons inquiry · `NP` NAO–PAC · `ISR` independent statutory reviewer · `SSR` statutory self-report · `RB` regulator-or-body report · `CE` commissioned evaluation · `CR` component review (scope label).

E7 tail categories. `nPMB` narrow PMB (or narrow technical/amending Government Act — flagged) · `LCc` Law-Commission codification/consolidation · `nc` never-commenced · `se` spent-event · `mO` major-old · `mR` major-recent. Flagged additions where the six do not fit: `[cr]` curative/retrospective · `[rd]` review-declined / constitutional.

COHORT 2015 ▲ (pilot) — frame 22 (37 PGA − 15 carve-outs); F 6 / H 6 / O 10 ; none ≈45%

Pilot, strict-harmonized: the three demotions (c.17, c.20, c.28 half→open) lifted none ≈32%→≈45% (+13pp) — the strongest single piece of audit evidence in the panel (an independently-corrected, pre-rubric cohort). Old+heavy (many substantive majors); ▸S dense and entirely honoured.

E1 · major × outcome

Major set (n=12): **c.2** Criminal Justice & Courts · **c.4** Insurance · **c.6** Counter-Terrorism & Security · **c.7** Infrastructure · **c.8** Pension Schemes · **c.9** Serious Crime · **c.12** International Development (ODA 0.7%) · **c.15** Consumer Rights · **c.20** Deregulation · **c.25** Recall of MPs · **c.26** Small Business, Enterprise & Employment · **c.30** Modern Slavery.

COHORT 2011 ◆ — FINALIZED — frame 21 (25 PGA − 4 carve-outs, Olympic returned); F 8 / H 6 / O 7 ; none ≈33%

DISCREPANCY: RESOLVED. The first half's single open reconciliation item is now closed against the recovered the 2011 harmonization record (report §5.6).

The first half built 2011 on **stage-1 + Olympic** (F 9 / H 6 / O 6, frame 21) and flagged that this did not close to the reconciled series' F 8 / H 6 / O 7, attributing the gap to "one unlocalized stage-2a move," with a **flagged reconstruction**: *c.19 Pensions filled→half + a non-major half→open (candidate c.25 Charities)*. the 2011 harmonization record (report §5.6) confirms that reconstruction **exactly**:

2a move	direction	rule	headline effect
c.25 Charities Act 2011 half → **open**	demotion	pure consolidation: the located PLS (PASC inquiry, Hodgson) is of the **2006 Act** under its own review clause (A1.2); LC 2017 → Charities Act 2022 = reform (A1.1); **no review of the 2011 consolidation's own operation**	**headline-moving** (+5.0 pp)
c.19 Pensions Act 2011 filled → **half**	demotion	PHSO SPA-communication investigation + AE review (Pensions Act 2008) + SPA reviews (Pensions Act 2014 s.27) are **component/adjacent** (A8), not a whole-Act review of the *2011* Act	**neutral** (still "any review")

So harmonized-at-2a = **F 8 / H 6 / O 6** (frame 20, none **30.0%**); **+ Olympic (c.22) returned IN as open at 2b** = **F 8 / H 6 / O 7** (frame 21, none **33.3%**) = **Appendix B**. The reconstruction was correct; **major-only (100%) and ▸S (5/5 located) are unchanged** by both moves (c.19 stays reviewed; c.25 and Olympic are non-major and non-▸S). The tables below are rebuilt on the

harmonized basis (located = 14: F8 + H6; c.25 leaves the located set, its CR route → 0; c.19 stays located, now half).

Harmonized 2011 dots (the 2011 harmonization record (report §5.6) §2 + Olympic 2b): **FILLED (8):** c.4▸S, c.5, c.13, c.14▸S, c.15▸S, c.16, c.23▸S, c.24 · **HALF (6):** c.1, c.6, c.18▸S, c.19, c.20, c.21 · **OPEN (7):** c.3, c.7, c.8, c.9, c.17, c.25, c.22 (Olympic).

E1 · major × outcome — *harmonized (c.19 now half)*

FIELD	311	94	80	137

Field (merged): filled **94** / half **80** / open **137**; located (any) **174**. → **none ≈ 44%** (137/311 = 44.1%); **any ≈ 56%** (174/311 = 56.0%); **whole-Act/formal-review basis ≈ 30%** (filled 94/311 = 30.2%). ✓ reproduces the merged series (report §5.6 / the merged-series delta).

F1 · MAJOR × outcome (E1 roll-up)

	major	m-filled	m-half	m-open	major-only (strict)
2008	13	10	3	0	100% (+2 borderline opens: c.13, c.24)
2009	11	4	6	1	≈91%
2010 ◆	10	7	3	0	100%
2011 ◆	11	7	4	0	100%
2012	7	4	2	1	≈86%
2013 ▲	10	4	5	1	≈90%
2014	11	7	4	0	100%
2015 ▲	12	5	5	2	≈83%
2016	8	6	1	1	≈88% (named open c.12 vs the recount-named c.22 — flag)
2017 ▲	9	3	4	2	≈78%
2018 ✚	5	3	2	0	=100%
2019 ▲	4	2	1	1	≈75% (~70%; n-judgement, terse ledger)
2020 ▲	7	4	1	2	≈71% (D4; legacy 5/8 ≈63% incl. consolidation)
2021	12	3	8	1	≈92%
FIELD	130	69	49	12	

Field major (merged): total **130** (strict, D4; band **130–132** folding the named borderlines) · filled **69** · half **49** · open **12** (strict) → **13** counting the 2008 RES&S borderline (`c.13`). **Field major-only ≈ 91%** (strict 118/130 = 90.8%; 118/132 = 89.4% with borderlines) vs **≈56%** any-located for all substantive Acts — the salience gap.

The 12 named unreviewed clearly-major Acts (field, merged): `2008 c.13 RES&S (borderline)` · `2009 c.12 Political Parties & Elections` · `2012 c.19 Civil Aviation` · `2013 c.27 Growth & Infrastructure` · `2015 c.4 Insurance` · `2015 c.20 Deregulation` · `2016 c.22 Housing & Planning` **[computed; the recount names c.22 Housing & Planning — flagged]** · `2017 c.20 Neighbourhood Planning` · `2017 c.21 Bus Services` · `2019 c.18 Mental Capacity (Amdt)/LPS` · `2020 c.11 Divorce` · `2020 c.20 Immigration` · `2021 c.23 Overseas Operations` = **12**. *(Merged removals: 2018 c.12 — adjudicated half ▸S; 2020 c.17 — excluded as consolidation, D4; 2021 c.22 — adjudicated ▸S-half at the pre-publication check, ✚; 2016 c.12 — demoted to borderline at the grid adjudication, the named entry reading c.22.)* (Plus borderline-major opens not in the strict 16: `2008 c.24 Employment`, `2019 c.4 CT&BS`.)

Honest reading (= the standardized major recount (report §5.6)): the unreviewed majors **cluster in the recent cohorts** — 2020 (1 strict), 2021 (2), plus 2017–2019 — where flagship

Acts (Divorce, FSA 2021, Overseas Operations) are **too new to have been reviewed yet**; genuine *old* major misses exist (RES&S 2008, Political Parties 2009, Civil Aviation 2012) but the age-trend reappears inside the major subset (lowest major-only rates are the youngest cohorts). Much of the unreviewed share — even among majors — reads "not yet", not "never" (search-bounded).

F4 · ▸S × outcome (E4 roll-up) + non-▸S comparator

	▸S total	▸S-F	▸S-H	▸S-O	▸S located

TOTAL	59	78	137	

The open tail is structurally patterned, not random. Narrow PMB / narrow technical Government Acts (83) + spent-event (19) + Law-Commission codification/consolidation (13) + never-commenced (5) = **119 of 137 ≈ 87%** of the "no located review" set. The **major** opens — mO (13, incl. the two 2016 entries) + mR (3) = **16** — are the only substantial non-narrow slice, and (per F1) they cluster in the recent cohorts. This bounds the visibility-bias alternative: the unreviewed remainder is dominated by the kinds of Act that *structurally* attract no PLS.

HEADLINE RECONCILIATION

The blocker-closer for the revision specification §B: do the field tabulations reproduce the four headline claims, or must the headline move? Computed numbers are stated precisely; "≈" is preserved where the underlying call is a boundary judgement.

> **HEADLINE RECONCILIATION — major total (merged): computed 130** (strict, D4; band **130–132** folding the named borderline-majors) **vs reported ≈130. Reconciles.**
>
> **HEADLINE RECONCILIATION — major-open (merged): computed 12** (strict) / **13** counting the 2008 RES&S borderline (c.13) **vs reported 12 (band 12–14; the 2016 entry reads c.22 after the grid adjudication, §5.6). Reconciles.** One **Named-Act substitution — CLOSED (§5.6, branch B).** Adjudicated: the recount's naming stands (c.22 = the 2016 open major); the tabulation's c.12 Enterprise moves to the borderline set; dots follow the ledger. Strict total 131−130; rate 118/130 ≈ 91%.

HEADLINE RECONCILIATION — major-only rate (merged): computed ≈91% (strict 118/130 = **90.8%**; 118/132 = **89.4%** with borderlines) **vs reported ≈91%. Reconciles** — and against the **≈56%** any-located rate for all substantive Acts, the salience gap is large and survives the uniform definition.

HEADLINE RECONCILIATION — ▸S (merged): computed ▸S-located 78/78 = 100% (▸S-open = **0 in every one of the 14 cohorts**; base = bottom-up per-Act ledger; the last flag — 2021 c.22 — adjudicated ▸S-half at the pre-publication check) **vs reported 78/78, 0 flags. Reconciles** (search-bounded; a not-yet-located ▸S review elsewhere remains possible). non-▸S located ≈41% is the comparator.

HEADLINE RECONCILIATION — aggregate cross-checks (merged): field **none 137/311 = 44.1% ≈ 44%** and field **filled-basis 94/311 = 30.2% ≈ 30%** both **reproduce the release series exactly.** Field located 174; any ≈56%.

Verdict (merged): the headline holds. ≈130 / 12 strict / ≈91% / ▸S 78-of-78 all reconcile; the flags carried are the **2016 named-open substitution** (count unchanged) and the **2020 dual figure** (71% D4 / 63% legacy); the c.22 flag is closed.

DISCREPANCY register (second half)

1. **2011 — RESOLVED.** The first half's single carried discrepancy (one unlocalized stage-2a move) is closed against the recovered **the 2011 harmonization record (report §5.6)**: **c.19 Pensions filled→half** (neutral) **+ c.25 Charities half→open** (headline-moving, +5.0 pp — the consolidation-Act puzzle). Harmonized-at-2a F 8 / H 6 / O 6 (none 30%) **+ Olympic 2b open** = F 8 / H 6 / O 7 (none 33%) = Appendix B. The first-half reconstruction was **exactly correct**; major-only (100%) and ▸S (5/5) unchanged; the CR-route bookkeeping (c.25) is the demoted entry. **No further action.**

2. **2016 named open — tabulation vs the standardized recount (§5.6).** the recount (§5.6) names **c.22 Housing & Planning** as the 2016 unreviewed major, but its coding-file **dot is half** (Commons Library CBP-8229 + PAC); by the pre-adjudication dot the open major had read **c.12 Enterprise**; adjudicated — **c.22** (§5.6). **Rate and field major-open count (1) reconcile (release field rate ≈91%) either way; only the named Act differs.** Likely the recount flagged c.22 for its **major non-commencement** despite the half dot. **Flagged, not fudged;** tabulation follows the dot.

3. **2020 major-only dual figure — resolved by D4 (parallel-line adoption).** The uniform consolidation rule makes **5/7 ≈ 71%** the strict figure (c.17 Sentencing Code excluded from the set; dot unchanged); the legacy incl-consolidation **5/8 ≈ 63%** is retained for continuity only.

4. **2019 terse-ledger flags.** The 2019 coding file is **chapter-only**; per-Act **titles, routes and ▸S beyond c.14 Healthcare-EEA** (and the named c.18 Mental Capacity / c.2 Tenant Fees) are reconstructed/approximate. Dots are ledger-verified (the 2019 ledger check (report §5.6)); the **major set (n=4) is a judgement** (±1 — borderline-major c.4 CT&BS, coded open, treated non-major to match the recount naming only c.18), and **E6**

routes for c.7/c.9/c.3/c.17 are approximate (a handful of the 173 field route entries). Flagged, not hidden.

5. **Classification carryovers (from the first-half register, applied identically):** (a) **DM ⊇ formal Cm 7320 memoranda** (DM also captures PIRs / Government whole-Act review documents — membership differs, totals reconcile); (b) **`nPMB` reads as "narrow PMB / narrow technical or amending Government Act"** for the non-PMB narrow Acts (e.g. 2015 c.17; 2016 c.6; 2017 c.1/c.23; 2018 c.10; 2019 c.2/c.4; 2020 c.25); (c) **`[cr]/[rd]` are flagged additions** to the six E7 buckets (here: 2018 c.33 `[rd]`); (d) the **consolidation tag** (the 2011 harmonization record (report §5.6) carry-forward) is applied uniformly to **2011 c.25, 2020 c.9 and 2020 c.17 (Sentencing Code)** — a pure consolidation takes the dot of its own (absent) operational review.

6. **Merged propagation (July 2026, report §5.6 / the merged-series delta).** Applied throughout this file: dot re-codes — 2013 c.17 → half ▸S (stage-3; s.2 Oakley), 2014 c.28 → half (stage-3; TFC evaluations), **2018 c.12 → half ▸S** (panel; ss.189/178), **2019 c.12 → half ▸S** (the parallel line + panel; s.3 PLR), 2008 c.32 → filled (the parallel line; Cm 8893 — first half); **E4 undercount reconciliation to the coding-file ▸S sets (parallel line-1):** +c.19 (2016), +c.16 (2017), +c.18 (2018), +c.3 & c.17 (2019) — the −5 behind the old 68 roll-up; **D4** consolidation exclusion (2020 c.17); flags carried: 2012 c.19 (2023 CAA public-bodies review — first half); the 2021 c.22 flag fired and was adjudicated ▸S-half at the pre-publication check (Article-23E review, FCA 29 Feb 2024). Release field: 94/80/137, none ≈44%; major 118/130 ≈91% (strict open 12); ▸S 78/78.

7. **Grid-reconciliation adjudication (2016, §5.6 — branch B).** The audit table exposed a totals-invariant grid↔ledger pair; adjudicated for the ledger on both dots (c.22 open — PAC funding item non-qualifying; c.6 half — CE) and for the recount on naming (c.22 = the 2016 open major; c.12 → borderline). No release dot moves; strict total 131→130 (band 130–132), rate 118/130 ≈ 91%, named-12 intact with the 2016 entry reading c.22. Grids E1/E4/E6/E7-2016, F1/F6/F7 and this reconciliation updated accordingly; naming-substitution flag closed.

End of Appendix E second half (2015–2021) + finalized 2011 + field totals + headline reconciliation. "None located" is search-bounded throughout; no merits verdict is offered on any Act; the comparison leans on the pre-rubric and rubric-aware tiers (the reconciled-series tier notes (report §5.6)), the four rubric-defining cohorts' clean results being weaker evidence by construction.
